### **Description and appearance of the symbol**

The symbol consists of a crossed grain inside of a circle. The appearance of the commercial symbol must comply strictly with the symbol registered by the Coeliac Society. In addition to the symbol a national code FI and a licensing number must be printed to aid traceability of the licensor. The symbol is to be placed in the back of the package near manufacturer's information.

The symbol licence runs for two years and is renewed automatically after that if the criteria for licensing are met. Test certificates are required for all products at the beginning of the licence application and then annually at the time of renewal.
